About Edusense

A Management System, helpful app for Schools, institutes, and colleges

Edusense Note as a management app ensures smooth communication between parents and teachers like never before. With this institute management software, school administrator can now send customized messages to a class, a batch, or the entire school in just few clicks. This school management system allows teachers to upload assignments and homework in one go. Edusense Note as a student management system enables

teachers to mark attendance and send messages to parents instantly whose child remains absent. Edusense note enables teachers to send instant academic updates and alerts to parents directly which would be more convenient for them. Academic messages made more informative as teachers can now attach files, notes, e-books, and much more through our unique school management app.
